## PERSONAL INFORMATION

Full name: **Onur GÜNEŞ**  
Date of Birth: **11/02/1992**  
Place of Birth: **Ankara**  
Nationality: **Turkey**  
Marital Status: **Single**  
Gender: **Male**  
Driver License: **Category B**  
Military Service: **Completed**

## EDUCATION

- Engineering Management (MSc)**  
Middle East Technical University  
02/2019 – 07/2021
- Metallurgical and Materials Engineering (BSc)**  
Middle East Technical University  
09/2011 – 06/2017

## CERTIFICATES

- Data Manipulation with Pandas /**  
DataCamp (09/2021)
- Data Visualization with Matplotlib /**  
DataCamp (09/2021)
- Introduction&Intermediate Python /**  
DataCamp (09/2020)
- PowerBI Essentials / BI CASTLE (12/2019)**
- Excel For Engineers / METU SEM (02/2016)**
- Quality Management, Conformity Assessment and Tools / Bureau Veritas (04/2015)**

## SKILLS

### Computer Skills

Python, SAP, Minitab, PowerBI, XL Miner, R, Excel(Solver, Query), SAP Ariba, Teamcenter.

### Technical Skills

Project Management, Supply Chain, 6-sigma, Business Analytics, Optimization, Modelling & Simulation, Data Mining, Business Intelligence, Image Processing, Material Science, Purchasing.

## WORK EXPERIENCE

### **Purchasing Engineer**

#### Ford Otosan

Ankara, TURKEY (12/2021-Current)

Ford Otosan is a joint venture company of Ford Motor Company and Koç Holding A.Ş. with equal shares. By its 5 production and R&D facilities, Ford Otosan has been in the top 3 exporting companies of Turkey since 2004. As a Purchasing Engineer I am responsible for sourcing activities of interior and chassis commodities for next generation commercial BEV. Automotive purchasing is a brand-new challenge for me and also a great chance to collect the missing parts of my supply chain experience journey.

### **Quality Control Engineer**

#### Constantia Flexible ASAŞ

Ankara, TURKEY (10/2020-09/2021)

Contantia Flexibles was a packaging material producer with 36 factories in the world. As a Quality Control Engineer, my job was to ensure that work-in-process materials and finished goods are within the specification limits. To achieve this, I was responsible for the management of a quality control team which performs laboratory activities. Beside quality control, I also used to help customers with their complaint notifications.

### **Manufacturing Management Executive**

#### Mitaş Energy Inc.

Ankara, TURKEY (05/2018-09/2020)

Mitaş Energy Inc. is a global electric transmission line tower producer with its 7 production facilities. In this job experience, I used to plan and track production in the facilities. To achieve this, I needed to be involved in the whole supply chain steps. Projects involve design stage, raw material procurement, operational processes and shipment. During this job experience, I gained knowledge of project management, SAP, supply chain understanding, logistics and operations management.

### **Football Referee**

#### Turkish Football Federation

Ankara, Turkey(06/2009-Current)

Besides my engineering experiences, I also have a football refereeing career. Beginning from 2010, my refereeing journey continues. In 2014, I was promoted to regional referee class and started to officiate professional competitions. By refereeing I gain abilities like; teamwork, leadership, making strategic and quick decisions under pressure, taking risks and effective communication.
